

# SHIRISH KANOJE

## CONTACT

- +917820986647
- shirishkanoje9@gmail.com
- Pune-410401

## EDUCATION

- Bachelor of Engineering in Information Technology (SKN Sinhgad Institute of Technology and Science,LNL)
- Expected Graduation: June 2026

## SKILLS

- Performance validation
- Coding
- Continuous integration
- Object-Oriented Programming (OOP)
- Data structures
- Java development
- REST API deployment
- Spring technologies
- Continuous deployment
- Web development
- Data analysis and visualization

## LANGUAGES

- java
- html
- css & bootstrap
- python (basic)

## PROFILE

"Dynamic and results-driven Java Developer with hands-on experience at Technohacks and YBI Foundation, specializing in Java development, data structures, and REST API deployment. Proven ability to excel in coding, performance validation, and integration of multiple data sources into seamless systems. Demonstrates continuous improvement, innovative problem-solving, and a collaborative approach to team projects."

## WORK EXPERIENCE

### Software Development Engineering Intern

2 MONTH INTERNSHIP

**Bluestock Fintech, Remote**  
November 2024 - Present

- Collaborating with cross-functional teams to design, develop, and implement software solutions to support financial operations.
- Engaging in end-to-end development cycles, including code reviews, debugging, and deployment.
- Developing RESTful APIs to enhance the platform's functionality and improve user experience.
- Gaining hands-on experience with industry-standard development tools and frameworks to optimize coding practices.

### Web Developer Intern

1 MONTH INTERNSHIP

**Technohacks, Remote**  
May 2024

- Used content creation tools and digital media strategies to design and develop responsive websites.
- Collaborated with cross-functional teams to ensure effective digital presence.
- Attended development programs to enhance skill sets and learn best practices in modern web development.

### Data Science and AI Intern

1 MONTH INTERNSHIP

**YBI Foundation, Remote**  
May 2024 - June 2024

- Developed polished data visualizations to effectively communicate results of data analyses.
- Modeled predictions using feature selection algorithms and machine learning techniques.
- Improved data collection methods by designing more effective surveys and instruments.

### Java Developer Intern

1 MONTH INTERNSHIP

**Technohacks, Remote**  
September 2024

- Wrote clean and efficient code for functional web applications under the guidance of a master developer.
- Integrated user-facing elements developed by front-end developers into backend logic.
- Debugged and corrected programming errors with advisory from senior developers.
- Integrated multiple data sources and databases into unified systems for seamless data flow.
